

Your BT3580 is now ready to use.

- Set up your additional handsets (if you've bought a multipack)**
- For each additional handset and charger: plug the mains power adaptor into the socket on the underside of the charger, secure the cable behind the retaining clip and plug the other end into the wall power socket and switch on.
 - Activate the batteries as shown above. Then place the handset on the charger to charge for 16 hours.

Important: you should charge the batteries for 16 hours before using the handset for the first time.

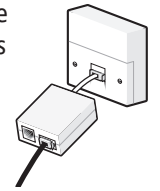

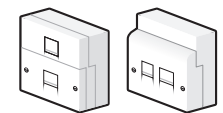

- Slide off the battery cover from the back of the handset and insert the two batteries supplied. Note the '+', and '-' markings inside the battery compartment. Then slide the battery cover back into place.
- The handset will check for a link with the base station. Once found, you'll need to set the time and date, but you can then press the  button to skip any further options until setup is complete (you can always set these up later).
- Place the handset on the base and leave to charge the batteries for 16 hours. The handset gives a confirmation tone.

2 Charge

Troubleshooting

Most problems can be fixed with a few simple checks.

Problem	Solution
No dial tone or line cord error message displayed on-screen	Only use the cables and batteries supplied. Make sure both the mains power adaptor cable and telephone line cord are plugged into the correct sockets.
Poor speech quality	Make sure the product is not located too close to other electrical appliances. This can also help to improve the handset range from the base.
 Battery icon is animated in a cycle when charging	The battery charge is very low. Make sure you charge the batteries for 16 hours before use to ensure maximum battery performance
Using broadband on the same phone line?	To avoid problems with your broadband or noise on your phone line, you might need to plug your telephone line cord into the wall via a microfilter (not supplied). If your main phone socket has a single socket, as shown, you'll need to use microfilters  You don't need to use microfilters if your main phone socket has two separate sockets, like either of these: 

- The telephone line cord is already fitted, plug the other end into the wall power socket.
- Plug the other end of the power adaptor into the wall power socket and switch on.

1 Plug in

General information

For information on safety instructions, cleaning, technical information or connecting to a switchboard, please refer to the 'General information' section in the full user guide at bt.com/producthelp

Guarantee

Your BT3580 is guaranteed for a period of 12 months from the date of purchase.

Subject to the terms listed below, the guarantee will provide for the repair of, or at BT's or its agent's discretion the option to replace the BT3580, or any component thereof, (other than batteries), which is identified as faulty or below standard, or as a result of inferior workmanship or materials. Products over 28 days old from the date of purchase may be replaced with a refurbished or repaired product.

The conditions of this guarantee are:

- The guarantee shall only apply to defects that occur within the 12 month guarantee period.
- Proof of purchase is required.
- The equipment is returned to BT or its agent as instructed.

This guarantee does not cover any faults or defects caused by accidents, misuse, fair wear and tear, neglect, tampering with the equipment, or any attempt at adjustment or repair other than through approved agents.

This guarantee does not affect your statutory rights.

To find out what to do, if your phone is in or outside of the 12 month guarantee, please look in the full user guide at bt.com/producthelp

How to recycle your equipment

The symbol shown here and on the product means that the product is classed as electrical or electronic equipment, so DO NOT put it in your normal rubbish bin.

It's all part of the Waste Electrical and Electronic Equipment (WEEE) Directive to recycle products in the best way – to be kinder to the planet, get rid of dangerous things more safely and bury less rubbish in the ground.

You should contact your retailer or supplier for advice on how to dispose of this product in an environmentally friendly way.

Warning

You won't be able to call 999 from this phone if there's a power cut, so make sure you've got another way to call for help in an emergency.

Radio Equipment Directive Declaration of Conformity

Hereby, British Telecommunications plc declares that the radio equipment type BT3580 Telephone (086917, 086918, 086919, 086920) is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: bt.com/producthelp

Radio transmission information

Frequency range 1881.792 – 1897.344MHz
